

Syllabus. Football Performance Analyst

Justification

Objectives

Competences

TOPICS

Module 1. Technology and Role of the Performance Analyst

Module 2 - Understanding and Analyzing the Game

Module 3. Training Planning and Work Method

Module 4. Adversary Analysis

Justification

The inclusion of multidisciplinary work teams in football and the growth in the use of technology in this sport have become a reality.

Currently, practically all professional football teams and/or coaching staffs have a person in charge of analyzing the performance of their own team and/or their opponents. In addition, the evolution of technological products and services for the analysis of matches and players, help to enhance the development and performance of a club, coaching staff and players, allowing to optimize time in accessing information about rivals, improve the planning of matches and training, among other benefits.
